Professional Summary

Computer Science graduate (B.Sc. in AI & Data Science, June 2026) from the Egypt-Japan University of Science and Technology (E-JUST), seeking a **Teaching Assistant** position in Computer Science. Combines hands-on teaching and one-on-one tutoring experience with strong foundations in **mathematics**, **artificial intelligence / machine learning**, and **programming and problem-solving**. Enjoys breaking down complex technical concepts into clear explanations that help students build confidence and master fundamentals.

Education

B.Sc. in Computer Science – Major in AI & Data Science **Oct 2022 – Jun 2026**
Egypt-Japan University of Science and Technology (E-JUST) *Borg El Arab, Alexandria, Egypt*
• Graduated **June 2026**, CGPA 3.2. Relevant coursework: Data Structures & Algorithms, Calculus, Linear Algebra, Probability & Statistics, Discrete Mathematics, Machine Learning, Deep Learning, and Databases.

Graduation Project

Smartino – AI-Powered Educational Super-App for Children **2025 – 2026**
Egypt-Japan University of Science and Technology (E-JUST) *Graduation Project*
• Built an AI-powered learning companion for Egyptian children (ages 5–10) featuring speech-to-speech conversations, an adaptive learning path, interactive games, and AI-generated stories.
• Integrated and orchestrated multiple AI services – speech-to-text (Whisper), a large language model (LLaMA 3.3), and text-to-speech – behind a custom orchestration layer with cloud/offline fallback, plus an adaptive difficulty system and parent dashboard.
• Built the cross-platform app in **Flutter/Dart** with a **Python** backend, applying clean architecture and automated testing.

Teaching Experience

Junior Teaching Assistant **Jul 2021 – Sep 2021**
Zewail City of Science and Technology *Giza, Egypt*
• Provided one-on-one technical guidance to a cohort of 40+ students, simplifying **Python programming** concepts and reinforcing problem-solving and debugging in lab sessions; supported a class-wide 10% increase in module completion rates.

Online Tutor – Mathematics & English **2024 – Jun 2025**
Freelance *Remote*
• Mentored 7 individual students to an average improvement of 2 grade levels through structured, personalized lesson plans and tailored practice material matched to each student's pace.

Technical & Academic Skills

- **Mathematics:** Calculus, Linear Algebra, Probability & Statistics, Discrete Mathematics, logical reasoning.
- **Artificial Intelligence & Data Science:** Machine Learning, Deep Learning, data preprocessing & feature engineering, model evaluation, LLM/AI service integration.
- **Programming & Problem-Solving:** Python, Dart/Flutter, SQL, algorithms & data structures, OOP.
- **Tools & Teaching:** Git/GitHub, MS Office, Power BI, Tableau, Jupyter; lesson preparation, one-on-one tutoring, clear explanation of complex concepts, mentoring.

Selected Coursework Projects

- **Credit Card Approval Prediction** (Aug 2024) – Cleaned a 10,000+ record credit-history dataset and applied classification to derive risk insights (95% accuracy).
- **Titanic Survival Prediction** (Feb 2024) – Preprocessing and feature engineering for predictive modeling (87% accuracy).

Additional Experience

- **Customer Service Representative**, Concentrix – Amazon Business Account (Jul – Oct 2025): resolved 90+ B2B inquiries/day with a 95% CSAT rating and 15% fewer escalations.
- **Freelance Academic Writer**, Livingston Research (2022 – 2023): 5+ academic papers/month.

Languages

Arabic: Native | **English:** C1 – Advanced Proficiency (Certified by EF SET)
